

Description

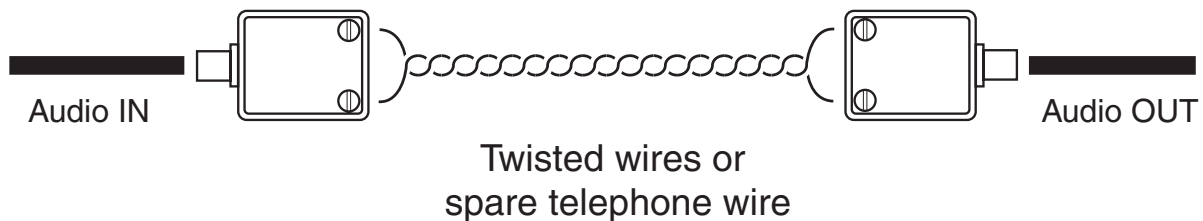

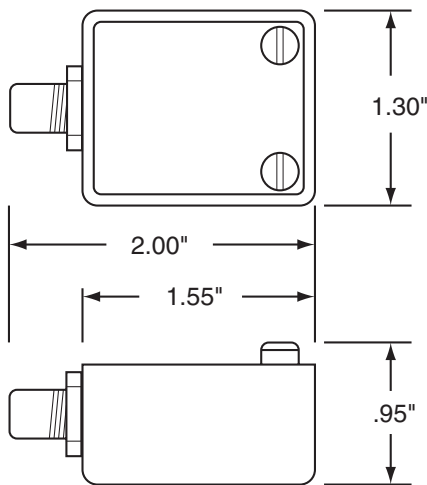

The **AS1000** is an audio link system that provides a low cost method of sending line level audio over twisted pair, point-to-point wiring for distances of up to 2 miles. The AS1000 includes two bi-directional modules and can be used over existing in-house telephone wiring, leased lines or other twisted pair cables, such as Category Cabling. The AS1000 can also be used as an audio companion product for the Nitek twisted pair and leased line video transmission systems.

Features

- Audio companion product for the Nitek video transmission systems
- Can be run in the same cable with communication, video and data signals
- Does not require power
- Weatherproof design
- Operates with standard line level audio

Specifications

Size	.95" H x 1.30" W x 2.00" D
Power Requirements	None
Audio IN/OUT	RCA jack for line level
Twisted Pair IN/OUT	Screw terminals
Distance	2 miles
Shipping Weight	1 lb
