

SMS FLATSCREEN WL 3D

Different points of view.

The SMS Flatscreen WL 3D is an elegant way to extend the use of your screen regardless of the room's architectural limitations.

The SMS Flatscreen WL 3D can be adjusted almost any way you want. The SMS Flatscreen WL 3D is the smallest and lightest of our 3D arms. Even though we have constructed a very thin, flat wall bracket it is still safe and reliable. It can carry screens up to 15 kg. The screen can be extended as far as 38 centimeters from the wall or flat against it. Choose one of three new finishes: Glossy White, Piano Black or Dark Grey, for tasteful matching with the room and the equipment.
