

FMC-01

Instantly position the display to the optimum height and angle with the AG Neovo FMC-01 floor mounting cart.

Fitted with the continuous height adjustable mechanism, the FMC-01 allows users to quickly reposition the display to any preferred height within the wide range of 500 mm. Changing display between landscape and portrait orientations is convenient with the easy-to-tilt and -rotate design. Handy cable management not only conceals cables for a neat look but prevents users from tripping over cords. Accommodating displays weighing from 10 to 35 kg, the FMC-01 is ideal for retail, office, education and event environments.

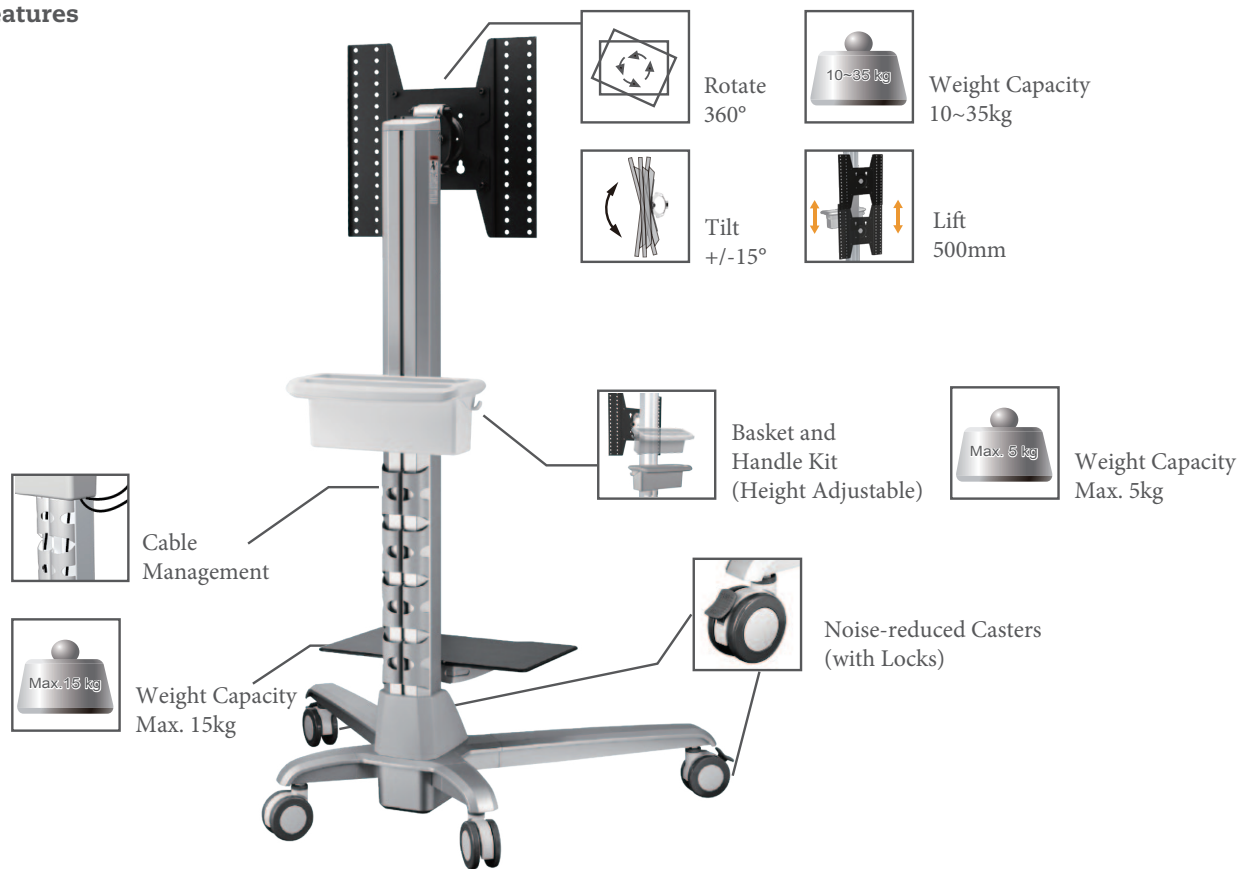

- > Friendly and rugged design
- > 500 mm (19.7") of continuous height adjustment
- > Rotate for landscape or portrait display
- > Tilt up and down from 15° to -15°
