Digital Video Recorders

Pelco Digital Video Recorders

Running a business of any size and keeping it profitable is no small task. While owners want to ensure safety and protect their investment, there often is not enough time in the day to manage daily security logistics. Pelco and the DX4000 series of digital video recorders can help. For the right features at the right price, look no further than Pelco DX4000 Digital Video Recorders.

Guarding Your Business. Protecting Your Bottom Line.

Ready-to-record right out of the box and exceptionally simple to operate, DX4000 Series digital video recorders come with a wireless remote control that greatly minimizes employee-training time. By using the remote client, users can keep watch over multiple locations at once.

DX4004, DX4500, and DX4600 DVRs utilize MPEG-4 compression technology for small files sizes and greater efficiencies when transmitting over today's broadband networks. With four-, eight-, and sixteen-channel models featuring impressive search capabilities, recording speeds

of up to 480 IPS, and internal storage capacity up to 3 TB, rest assured that the video you need is always at your fingertips. And with the ability to trigger recording and alarms on motion or external contacts, DX4000 DVRs deliver an automated monitoring system perfect for unattended applications.

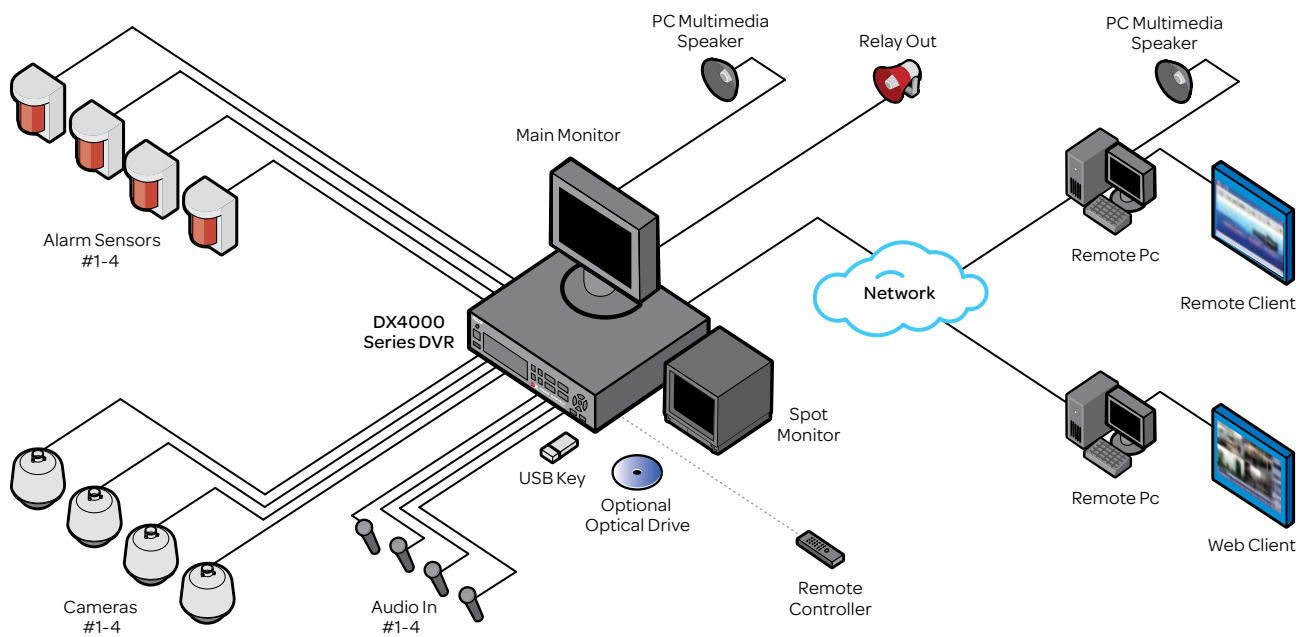

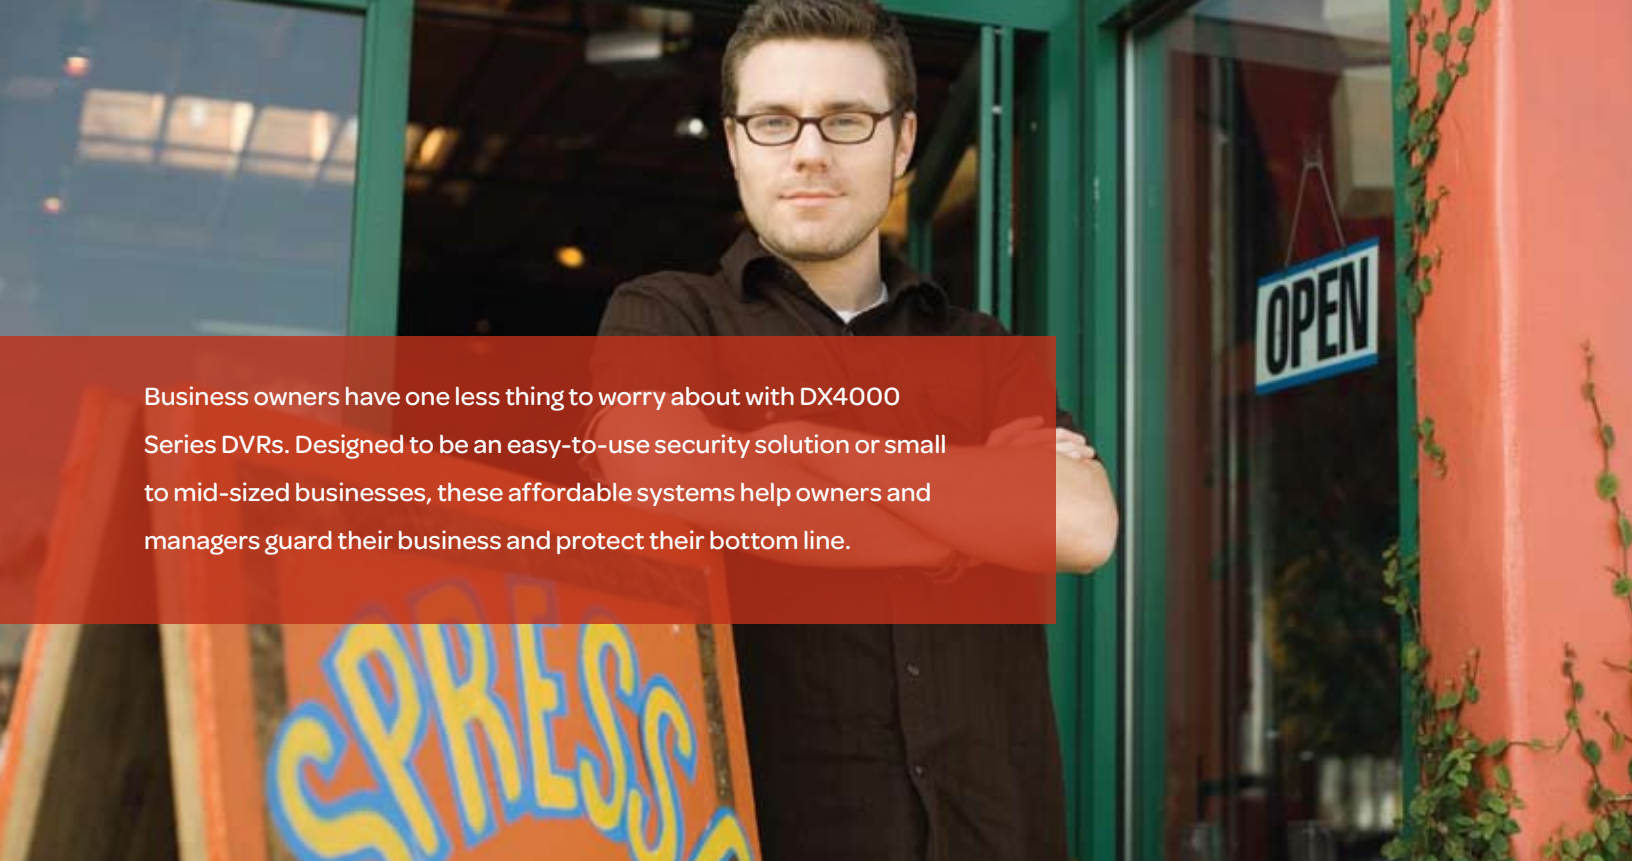

It is easy to secure campuses and multi-building facilities with DX4000 systems. Take advantage of existing network infrastructure to transmit video to a remote client or web client for convenient viewing and management.

From basic stand alone to multi-location networked applications, the DX4000 Series provides the power and flexibility you need. These full-featured systems offer models supporting recording speeds of up to 480 IPS and up to 3 TB of internal storage. Combined with network capabilities the video you need is always at your fingertips with DX4000 DVRs.

Secure Video Backup

DX4000 Systems Backup Player is automatically downloaded with file exports and allows users to review video that has been backed up to the hard disk, a CD, DVR, or USB flash memory device. DX4000 Series DVRs also digitally watermark video as it is recorded. This digital watermark can be authenticated from the Backup Player.

Business owners have one less thing to worry about with DX4000 Series DVRs. Designed to be an easy-to-use security solution for small to mid-sized businesses, these affordable systems help owners and managers guard their business and protect their bottom line.

Excellent Quality Images

With the ability to record at resolutions of up to 4 CIF, the DX4000 Series of DVRs capture crystal clear pictures and full-motion video, creating effective footage for later use and retrieval.

Flexible Recording Choices

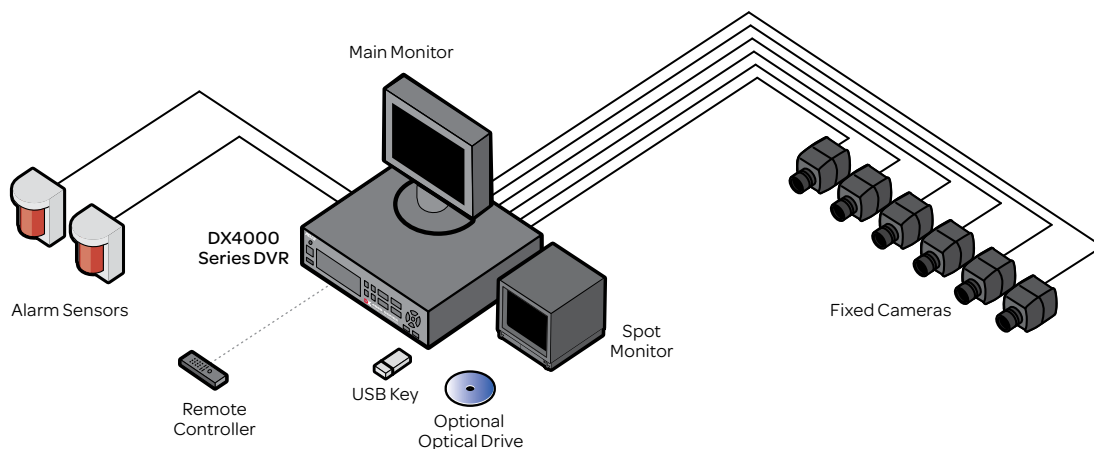

Because recording resolutions, frame rates and image quality settings are adjustable on a camera-by-camera basis, DX4000 Series systems provide the flexibility needed to effectively utilize and manage HDD capacity. Additionally, DX4500 and DX4600 systems feature HDD Storage Manager, allowing users to specify how much space is allowed to alarm recording. The remaining storage is used for continuous recording.

Total Product Support

We will always do whatever it takes to make sure every customer is protected by Pelco's commitment to 100% Customer Satisfaction. With Off-the-Shelf Product Availability, Guaranteed Ship Dates, 24-Hour Service and Repair Guarantees, and Around-the-Clock Person-to-Person technical support, no one even comes close to matching the value of DX4000 Series Digital Video Recorders.

Unmatched Quality and Service

DX4000 Series DVR Models and Features

DX4000 Series systems deliver efficient hard drive storage of up to 3TB and optical disk drives make it easy to archive video critical for investigations. Packed with features, easy-to-use and affordably priced, these DVRs put the “easy” in your buying decision.

DX4004 Digital Video Recorder

- 4-Channel DVR
- Up to 120 Images Per Second (IPS) at CIF Resolution
- Up to 500 GB Maximum Internal Storage
- Independent Channel Resolution, Quality, and Frame Rate Settings
- Flexible Scheduling and Search Features
- Optional CD or DVD Optical Drives
- Internal PTZ Control, No Keyboard Needed
- Remote Client and Web Client

DX4004

DX4500 Digital Video Recorder

- 8- or 16-Channel DVR
- Up to 240 IPS at CIF Resolution
- Up to 1.5 TB Maximum Internal Storage
- Independent Channel Resolution, Quality, and Frame Rate Settings
- Flexible Scheduling and Search Features
- Optional CD or DVD Optical Drives
- Internal PTZ Control, No Keyboard Needed
- Remote Client
- Web Client
- Mail Notification and Emergency Agent

DX4500

DX4600 Digital Video Recorder

- 8- or 16-Channel DVR
- Up to 480 IPS at CIF Resolution
- Up to 3 TB Maximum Internal Storage
- Independent Channel Resolution, Quality, and Frame Rate Settings
- Flexible Scheduling and Search Features, including Pixel Search
- Optional DVD Optical Drive
- Internal PTZ Control, No Keyboard Needed
- Remote Client
- Web Client and Emergency Agent
