

PowerLine Turbo Ethernet Adapter Start Kit

85 Mbps Networking Across Your Entire AC Power Line
NetworkProtect Your Network Camera Investment

Use any of the electrical outlets in your home or office to create a high-speed network.

Model
503822

The INTELLINET NETWORK SOLUTIONS PowerLine Turbo Ethernet Adapter allows you to create a high-speed network for the computers in your home or office by simply plugging the adapters into any electrical outlet. You immediately create a network using the existing AC power lines and can extend your home network into areas a wireless signal cannot reach.

Easy to Install

Network your PCs and share the high-speed Internet connection using existing electrical outlets in your home or office. No need to drill holes in walls, pull cable through the attic or basement, or pay for contractors to come and wire your home. Just plug the PowerLine Turbo Ethernet Adapter into the wall, plug your router into it, and you've now created a network within your home. Attach multiple computers to the network by simply plugging them into additional PowerLine Turbo Ethernet Adapters.

High Performance

The PowerLine Turbo Ethernet Adapter complies with the HomePlug 1.0 standards, and provides a network connection speed of 85 Mbps. It automatically senses the speed of the router or computer device, and adjusts to accommodate 10 Mbps or 100 Mbps Ethernet devices.

Cost Effective

Because there is no special wiring required, the PowerLine Turbo Ethernet Adapter can be installed with minimal expense. And you can move them to a different home or office without leaving a mess or having to reconfigure them.

Secure

Just because your data is running through your AC power lines, don't think it isn't secure. The PowerLine Turbo Ethernet Adapter uses 56-bit encryption to protect your data as it is routed through the AC power lines in your home or office.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all INTELLINET NETWORK SOLUTIONS products. All items carry a full Lifetime Warranty — the strongest commitment anyone can make.

* The PowerLine Turbo Ethernet Adapter is not compatible with the PowerLine HD Ethernet Adapter, but the two products can co-exist on the same power line without interfering with one another.

Model
503822

Features

- Includes two PowerLine Turbo Ethernet Adapters
- Expand your home network using existing power lines
- Extends high-speed Internet around the home
- Provides network access for computers and gaming consoles
- Plug and Play (no drivers required)
- Up to 85 Mbps network data rates and data security through 56-bit encryption
- HomePlug 1.0 compliant
- Lifetime Warranty

Specifications

Standards

- IEEE 802.3 10Base-T
- IEEE 802.3u 100Base-TX
- HomePlug 1.0

General

- One 10/100 RJ-45 port
- One AC power line port
- Chipset: Intellon INT5500
- Link speed: up to 85 Mbps
- 56-bit AES Link Encryption with key management for secure power line communications

LEDs

- Power
- Power line Link/Activity
- Ethernet Link/Activity

Power

- Internal 90 – 260 V AC, 50 – 60 Hz
- Power consumption: 2.5 Watts (maximum)

Environmental

- Dimensions: 75 (W) x 102 (L) x 34 (H) mm (2.9 x 4.0 x 1.4 in.)
- Weight: 0.35 kg (0.8 lbs.)
- Operating temperature: 0 – 40°C (32 – 104°F)
- Operating relative humidity: 10 – 90%, non-condensing
- Storage temperature: -25 – 70°C (-13 – 158°F)
- Storage relative humidity: 0 – 95%, non-condensing
- Power: AC 100 – 240 V / 50 – 60 Hz / 0.1 A

Certifications

- FCC Part 15, Part B, Class B
- CE Class B
- RoHS

Minimum System Requirements

- TCP/IP protocol
- CD-ROM drive
- Configuration utility requires Windows 2000, XP, Vista

Package Contents

- Two PowerLine Turbo Ethernet Adapters
- Setup CD-ROM with user guide
- One Ethernet network cable
- Quick start guide
