

OUT OF THE BOX

The Samsung SNV-6013/FHM camera with Facit pre-installed App combines heat mapping with video surveillance

Heat Mapping – 360° view

Heat Mapping typical usage

includes visualising visitor traffic patterns and retail analysis of dwell time. Analyse customer behaviour and sales trends by understanding which products receive most interest.

Colour overlay

for identifying store hot spots of low or high activity / occupancy

Configuration & management

is designed to be operator friendly while the systems' reporting gives you a dashboard view of critical activity across your retail environments.

The Samsung SNV-6013/FHM camera

has been certified and tested by Facit.

Web based user interface

enables remote software set up & configuration.

Network integration

allows real-time measurement over the network.

Automated reporting

can be set up daily.

Report delivery

by email or FTP.

Real time graphs

with hourly breakdown.

Quick Review

quickly and clearly review hotspots and areas of interest using the unique 'timelapse' review feature.
