

SMS MULTI CONTROL

The sky is the limit.

This multiscreen solution offers nearly unlimited flexible possibilities for everyone who needs an exceptional overview. You choose how many screens you want to mount and how they are to be placed.

The possibility of adjusting the angle between the screens for personal settings is a further example of what the various versions of the SMS Multi Control offer in any field: bank, stock exchange, gaming or airport.

SMS MULTI CONTROL

INFO

- Finish: Aluminium/white.
- Maximum load: 10 kg for each screen, with a maximum of 60 kg for the complete bracket.
- Tilt: +/-25 degrees.
- Length (main column): 605 / 1105 mm.
- Number of screens: 2-8.
- Recommended screen size: 19" screens allow the maximum degree of adjustment, while the bracket can accommodate screens up to 24".
The Dual Clamp (MM051001-P0), Dual Boom (MM051006-P0), 2xDual Clamp (MM051011-P0) and 2xDual Boom (MM051012-P0) can accommodate screens up to 26", subject to a maximum weight limit of 10 kg per screen.
- The clamp models have excellent adjustment facilities and can be used with tabletops of maximum thickness 30 mm.
Easy to mount around a table corner.

All models are compatible with VESA standards:
75 x 75 and 100 x 100 mm.

Accessory: An attachment that enables you to place an extra screen centrally above a single row of screens.
