

ET-C12

12-slot Rack Mount Chassis

ET-C12 19" 3U high chassis is a quality design for the rack mounting of ET series media converter and power supply units. Along with led indicators for ease during cable connections. Each rack card modules performance and status LED indicators are also viewed and described on the front panel of the chassis.

The chassis provides an ET-PSU/5V power supply plus 12-slot spaces for rack card modules. The chassis offers each ET series rack card module the ability to "hot-swap" allowing any rack card module to be removed and restored without affecting the operation of any other rack card module.
